

APPROVALS

B APPROVALS

Protect your business and your customer's data with Bennu Approvals.

Ensure a higher level of fraud prevention throughout your customer's entire lifecycle.

- Flexible approval workflows for administering payment methods.
- Get a full picture of your customers' historical interactions with KYC (Know Your Customer) insights, including lifetime payment summaries and security profiles.
- Enhance cross-team communication with the ability to leave important notes or updates on customer profiles.
- Flag customer profiles that may pose a security or fraud risk and view evidence, or request further identity verification.
- Approvals can be combined with other Bennu products or integrated with your existing systems.
