

INSIGHTS

Bennu Insights gives you a fast, responsive picture of what is happening to your business now.

Drive more informed business decisions with instant analytics drawn from high-quality, reliable and scalable curated datasets.

- Tailor a suite of intuitive and flexible self-service dashboards to your requirements.
- Understand customer behaviours and forecast successfully using multiple data sources, available 24/7.
- React faster to trends with Insights' streaming data architecture to optimise the customer journey in realtime.
- Track transactional and non-transactional events at a granular level to understand how your customer's lifetime value develops.
- Insights can be combined with other Bennu products or integrated with your existing systems.
